

International Congress on Ultrasonics

SINGAPORE 2013

1 May to
4 May
2013

Organised by:

Society of Acoustics
(Singapore)

Managed by:

Supported by:

Held in:

The 3rd International Congress of Ultrasonics (ICU 2013), concurrently organised with the 32nd International Symposium on Acoustical Imaging (AI 2013) will be held in Singapore on 1 May to 4 May 2013

Why Exhibit?

Foreign Companies

ICU 2013, concurrently organised with AI 2013, is an established and well-recognised event in the industry. Participants should not miss out on it and with the promising market in ASIA, this is a great opportunity to introduce your products / technology and to expand the business to Singapore and its surrounding areas. It is a good platform to exploit the collaboration opportunities with industry partners, research institutes and universities.

Local Companies

See why you should not miss the opportunity to be part of this one and only complete exhibition in ICU 2013, concurrently organised with AI 2013. This is a great opportunity for local industries to explore and discover new business relationships domestically and internationally.

Why Visit?

Latest products, technologies and services in the markets.

Provides a holistic business experience combining exhibition, high-powered conference & seminars, and a host of networking events.

Impressive international endorsement and support with strong country representations.

Exhibits Profile

Medical Applications	Industrial Applications	Consumer Application	Measure Applications	Lab Applications
- High-Intensity Focused Ultrasound	- Ultrasonics Atomisation	- Ultrasonics Animal Chasers	- Ultrasonics Anemometer	- Ultrasonics Acoustic Microscopy
- Medical Ultrasound	- Ultrasonics Bonding	- Ultrasonics Bath	- Ultrasonics Detectors	- Ultrasonics Circuit
- Shock Wave Lithotripsy	- Ultrasonics Cleaning	- Ultrasonics Blind Cleaning	- Ultrasonics Distance Sensors	- Ultrasonics Cleaning Tank
- Ultrasonics Instrument	- Ultrasonics Cutting	- Ultrasonics Cleaners	- Ultrasonics Flow Meter	- Ultrasonics Clears & Cleaning Equipment
- Ultrasonics Liposuction	- Ultrasonics Detectors	- Ultrasonics Cleaning Tank	- Ultrasonics Horns	- Ultrasonics Homogenizers
- Ultrasonics Measurement	- Ultrasonics Degreaser	- Ultrasonics Clears & Cleaning Equipment	- Ultrasonics Inspection	- Ultrasonics Hydrophone
- Ultrasonics Nebulisers	- Ultrasonics Fog Generator	- Ultrasonics Cosmetic Product	- Ultrasonics Instrument	- Ultrasonics Instrument
- Ultrasonics Sound	- Ultrasonics Humidifiers	- Ultrasonics Fish Finder	- Ultrasonics Leak Detection	- Ultrasonics Leak Detection
- Ultrasonics Surgery	- Ultrasonics Holography	- Ultrasonics Fog Generator	- Ultrasonics Level Sensor	- Ultrasonics Measurement
- Ultrasound Doppler	- Ultrasonics Horns	- Ultrasonics Foggers	- Ultrasonics Measurement Sensor	- Ultrasonics Needle Hydrophones
- Ultrasound Imaging	- Ultrasonics Inspection	- Ultrasonics Golf Club Cleaners	- Ultrasonics Proximity Sensor	- Ultrasonics Non-Destructive Testing
- Ultrasound Scissor	- Ultrasonics Instrument	- Ultrasonics Humidifiers	- Ultrasonics Resonators	- Ultrasonics Probe
	- Ultrasonics Leak Detection	- Ultrasonics Jewellery Cleaners	- Ultrasonics Scaler	- Ultrasonics Sensors & Transducers
	- Ultrasonics Level Sensor	- Ultrasonics Pest Control	- Ultrasonics Sensors	- Ultrasonics Sensors & Transducers
	- Ultrasonics Machining	- Ultrasonics Sound	- Ultrasonics Sensors & Transducers	- Ultrasound Driving Circuit
	- Ultrasonics Measurement	- Ultrasonics Toothbrush (sonicare)	- Ultrasonics Thickness gauges	- Ultrasound Transducer
	- Ultrasonics Motors		- Ultrasonics Transducers	
	- Ultrasonics Needle Hydrophones			
	- Ultrasonics Nozzles			
	- Ultrasonics Probe			
	- Ultrasonics Proximity Sensor			

Main Topics for Discussion

- | | |
|-----------------------------------|--|
| 1 Acoustic Microscopy | 17 NDT: Guided Waves |
| 2 Acoustic Sensors | 18 NDT: Modeling & Simulation |
| 3 Adaptive Imaging & Focusing | 19 New Piezoelectric Materials & Devices |
| 4 Biomedical Ultrasound | 20 Nonlinear Acoustic Phenomena |
| 5 Bioeffects of Ultrasound | 21 Physical Acoustics |
| 6 Bulk & Surface Acoustic Waves | 22 Resonators & Waveguides |
| 7 Cavitation & Sonoluminescence | 23 Sonochemistry |
| 8 Contrast Agents | 24 Therapeutic Ultrasound |
| 9 Elastography & Vibro Acoustics | 25 Thermoacoustics |
| 10 Emergent Topics | 26 Transducer Modeling & Metrology |
| 11 High Frequency Medical Imaging | 27 Transducer Technology |
| 12 High Power Ultrasound | 28 Ultrasonics Motors & Actuators |
| 13 Medical Non-Linear Acoustics | 29 Ultrasound & Particles in Suspension |
| 14 Medical Parametric Imaging | 30 Ultrasound & Laser |
| 15 Molecular Acoustics | 31 Ultrasound in Anisotropic Materials |
| 16 NDT: Industrial Applications | 32 Underwater Ultrasonics |
| | 33 Vascular Ultrasound |
| | 34 Acoustical Metamaterials |
| | 35 Phononics |
